DIVISION OF
OIL, GAS AND MINING
by M. A. Wright
@ 1300m

Dear Sirs:

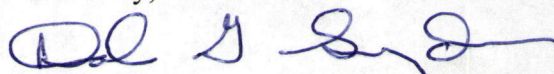

This is a letter of commitment with respect to maintaining our small mining permit on the Dolores River in Moab County, Utah, and is written pursuant to verbal agreements and commitments made between us in the meeting held in your office between 2:00 p.m. and 4:00 p.m. on Thursday, February 8, 2001.

We commit and agree to the following:

1. Within thirty (30) days of February 8, 2001,
 - a. Determine with the help of Anthony Gallegos the approximate perimeter boundary of that 5-acre parcel which will represent our permitted small mining operation;
 - b. Fix a date mutually acceptable to you, us and personnel from the Moab office of the Bureau of Land Management for an on-site visit and inspection;
 - c. Notify BLM that we would like to exclude from our small mining operation the access road into the site from the gate to that point at which the access road intersects the perimeter of the 5-acre piece except any part of the road that may be in excess of what during the on-site visit can be mutually agreed upon appears to be the historic width of the road;
 - d. Meet at your office at 2:00 p.m. on Tuesday, March 6, 2001, to review progress.
2. Within sixty (60) days of February 8, 2001,
 - a. Conduct an on-site visit (weather permitting) with personnel from AMMI, Bureau of Land Management and Division of Oil, Gas and Mining to fix and mark the permitted boundaries of our small mining operation;
 - b. Determine, based on the on-site inspection, areas to be reclaimed and areas from which equipment will be moved in order to comply with the small mining operation provisions of the law;
 - c. Determine, based on the on-site inspection, those areas previously disturbed which AMMI will not be required to reclaim unless AMMI chooses to mine those areas.
 - d. Meet again, if necessary, for review or coordination purposes.
3. Within ninety (90) days of February 8, 2001, complete any reclamation work which may be mutually agreed upon including the relocation of any equipment from the outside of the perimeter boundary which will be established for our small mining operation.

Thank you very much for your cooperation with us in this endeavor of ours.

Sincerely,

Dale G. Snyder, Managing Partner
